## **Public Health Competency Based Employee Performance Management Self Assessment Tool – Front Line Provider**

This **Public Health Competency Based Employee Performance Management Self Assessment Tool** (Self Assessment Tool) has been developed for public health front line providers to help them assess their competency level against the **Public Health Employee Performance Management Competency Profile** for their specific role. You will be asked to reflect on specific behaviours that you demonstrate at work. Consulting others is an option that can provide valuable information. Completing this self assessment takes time and it is suggested that you schedule a few short sessions to complete it.

### **The performance evaluation and the self assessment**

Employees are asked to complete a competency based self assessment. This is a self evaluation of behaviours, namely, what behaviours are being demonstrated and at what frequency and under what types of situations. This represents “HOW” an employee believes his or her tasks were performed. The performance evaluation involves a discussion between the manager and employee. The self assessment is a tool that is used as part of the performance evaluation process. The performance evaluation results in a common understanding of the quality and level of employee performance objectives and competencies over the review period – representing both “WHAT” tasks were performed and “HOW”.

### **Completing the questionnaire**

Please read each statement and rate yourself according to your abilities using the following scale. You should strive to be completely honest in your self assessment. Only accurate information will help you determine your strengths and areas for development.

After rating yourself, provide an example of how you demonstrate competence within this area. This example will support your rating and will be transcribed in Section B – Competency Review, of the **Public Health Competency Based Employee Performance Management Planning and Evaluation Tool**.

**Public Health Competency Based Employee Performance Management  
Self Assessment Tool – Front Line Provider**

<b>Legend Indicator</b>	<b>Description</b>
R – Rarely	I rarely demonstrate the behaviour/knowledge in own work.
PT – Part of the time	I apply this behaviour/knowledge part of the time, or in situations that are of low complexity or challenge.
AT – All the time	I use this behaviour/knowledge all the time in a full range of typical challenges.
CS – challenging situations	I apply this behaviour/knowledge successfully in unusual or challenging situations where there are no clear precedents and with no guidance.
N/A – Not applicable	Use the N/A rating when there is insufficient information to answer the question or when the question does not apply to the job of the individual being assessed.
